

## CURRICULUM VITAE

**Name** Chatsri Deachapunya

**Education** Ph.D. (Animal Physiology), University of Minnesota, U.S.A. 1993-1998  
M.Sc. (Physiology), Mahidol University, Thailand. 1985-1987  
B.Sc. (Nursing), First-class Honours, Mahidol University, Thailand.  
1979-1983

**Academic position** Associate Professor

**Affiliation** Department of Physiology,  
Faculty of Medicine, Srinakharinwirot University, North-Klongtoey,  
Wattana, Bangkok, Thailand 10110  
Tel. +662-649-5374  
E-mail: [chatsri@gmail.com](mailto:chatsri@gmail.com), [chatsri@swu.ac.th](mailto:chatsri@swu.ac.th)

**Awards** Outstanding New Researcher Award from the Thailand Research Fund (TRF) and the  
Commission on Higher Education (CHE) 2005  
Royal Golden Jubilee Ph.D. Grant 2007  
Research award for excellence center "Center for Herbal  
Development and Biological Activity Study" 2006 and 2008  
Royal Golden Jubilee Ph.D. Grant 2009  
Outstanding Research Publication Award, Faculty of Medicine,  
Srinakharinwirot University, 2014  
Outstanding Researcher Award, Faculty of Medicine, Srinakharinwirot  
University, 2015  
Outstanding Research Publication Award, Faculty of Medicine,  
Srinakharinwirot University, 2018  
Outstanding Preclinic Teacher, Faculty of Medicine, Srinakharinwirot  
University, 2019

## Textbook

Chatsri Deachapunya. Physiology of Epithelial Ion transport. Bangkok: Point Graphic Inc. 2018, 180 pages (ISBN 978-616-468-568-0)

## Publications

1. Krishnamara N, **Deachapunya C** and Limlomwongse L. Biliary calcium and bile acid secretion in intact and TPTX rats with varying plasma calcium concentration. *Digestive Disease and Science* 33(6): 685-691, 1988.
2. Wattanasirichaigoon S, Pongsakorn S, **Deachapunya C** and Wetchasit P. Comparative study on absorptive ability between simple and strangulated intestinal obstruction: an experimental study. *Thai Journal of Surgery* 13(4): 1-6, 1992.
3. Pongsakorn S, **Deachapunya C** and Wetchasit P. The role of royal jelly on blood glucose regulation of alloxan-induced diabetic rats. *Royal Thai Army Medical Journal* 46(2): 77-80, 1993.
4. Thongsaard W, **Deachapunya C**, Pongsakorn S, Boyd EA, Bennett GW and Marsden CA. Barakol : a potential anxiolytic extracted from *Cassia siamiae*. *Pharmacology Biochemistry and Behavior* 53(3): 753-758, 1996.
5. Vetter AE, **Deachapunya C** and O'Grady SM.  $\text{Na}^+$  absorption across endometrial epithelial cells is stimulated by cAMP-dependent activation of an inwardly rectifying  $\text{K}^+$  channel. *Journal of Membrane Biology* 160: 119 –126, 1997.
6. **Deachapunya C** and O'Grady SM. Regulation of chloride secretion across porcine endometrial epithelial cells by prostaglandin  $\text{E}_2$ . *Journal of Physiology* 508: 31-47, 1998.
7. **Deachapunya C**, Palmer-Densmore M and O'Grady SM. Insulin stimulates transepithelial sodium transport by activation of a protein phosphatase that increases Na-K ATPase activity in endometrial epithelial cells. *Journal of General Physiology* 114: 561-574, 1999.
8. **Deachapunya C** and O' Grady SM. Epidermal growth factor regulates the transition from basal sodium absorption to anion secretion in cultured endometrial epithelial cells. *Journal of Cellular Physiology* 186: 243-250, 2001.
9. Palmer-Densmore M, **Deachapunya C** and O'Grady SM. UTP-dependent inhibition of Na absorption requires activation of PKC in endometrial epithelial cells. *Journal of General Physiology* 120(6): 897-906., 2002.
10. **Deachapunya C**, Thongsaard W and Poonyachoti S. Barakol suppresses norepinephrine-induced inhibition of spontaneous longitudinal smooth muscle

- contractions in isolated rat small intestine. *Journal of Ethnopharmacology* 101(1-3): 227-232, 2005.
11. **Deachapunya C**, Poonyachoti S, Thongsaard W and Krishnamra N. Barakol extracted from *Cassia siamea* stimulates chloride secretion in rat colon *The Journal of Pharmacology and Experimental Therapeutics*. 314: 732-787, 2005.
  12. Poonyachoti S, Kalandakanond-Thongsong S and **Deachapunya C**. Chronic restraint stress modulates effects of mu-opioid agonists and vanilloid capsaicin on ion transport in rat colon. *Comparative Endocrinology and Biodiversity in Asia and Oceania*. Chulalongkorn University Press, pp 341-345, 2006.
  13. **Deachapunya C**, Poonyachoti S and Krishnamra N. Regulation of electrolyte transport across cultured endometrial epithelial cells by prolactin. *Journal of Endocrinology* 197:575-582, 2008.
  14. Poonyachoti S, Kalandakanond-Thongsong S, Tuanudom R, **Deachapunya C**. Effects of *Pueraria mirifica*, phytoestrogens and  $17\beta$ -estradiol on growth and expression of  $ER\alpha$  in primary culture of porcine endometrial epithelial cells. *Proceedings of the International Workshop on Medicinal and Aromatic Plants. Acta Horticulturae* 2008;178:67-72.
  15. **Deachapunya C**, Thongsaaard W. Behavioral effects of acute and chronic oral administration of barakol in rats. *Journal of the Medical Association of Thailand* 2009;92(Suppl.3):S29-37.
  16. **Deachapunya C**, Poonyachoti S, Krishnamra N. (2012) Site-specific regulation of ion transport by prolactin in rat colon epithelium. *Am J PhysiolGastrointest Liver Physiol* 2012; 302(1):G1199-206.
  17. Poonyachoti S, **Deachapunya C**. Modulatory effects of phytoestrogens on the expression of fas ligand and the release of cytochrome C in normal and cancerous endometrial cells. *Journal of the Medical Association of Thailand* 2012; 95 (Suppl.12):S106-113.
  18. **Deachapunya C**, Poonyachoti S. Activation of chloride secretion by isoflavone genistein in endometrial epithelial cells. *Cell PhysiolBiochem* 2013;32(5):1473-86.
  19. Kiatprasert P, **Deachapunya C**, Benjanirat C, Poonyachoti S. Soy Isoflavones improves endometrial barrier through tight junction gene expression. *Reproduction* 2015; 149(3):269-80.
  20. Buathong N, Poonyachoti S, **Deachapunya C**. Isoflavone genistein modulates the protein expression of toll-like receptor in canceroushuman endometrial cells. *J Med Assoc Thai* 2015; 98 (Suppl.9):S31-8.

21. Buathong N, Poonyachoti S, **Deachapunya C**. Anti-inflammatory Effect of genistein in human endometrial cell line treatment with endotoxin lipopolysaccharide. *Journal of the Medical Association of Thailand* 2016; 99 (Suppl.8):S134-41.
22. Srisomboon Y, Poonyachoti S, **Deachapunya C**. Enhanced secretion of beta-defensins in endometrial tissues and epithelial cells by soy isoflavones. *Journal of the Medical Association of Thailand* 2016; 99 (Suppl.8):S142-9.
23. Poonyachoti S, **Deachapunya C**. Protective effect of quercetin on endometrial epithelial barrier disruption induced by bacterial endotoxin. *Journal of the Medical Association of Thailand* 2017; 100(Suppl.8):S113-S120.
24. Srisomboon Y, Poonyachoti S, **Deachapunya C**. Soy isoflavones enhance  $\beta$ -defensin synthesis and secretion in endometrial epithelial cells with exposure to TLR3 agonist polyinosinic-polycytidylic acid. *American Journal of Reproductive Immunology* 2017; Oct;78(4). doi: 10.1111/aji.12694. Epub 2017 Apr 21.
25. Srisomboon Y, Zaidman NA, Maniak PJ, **Deachapunya C**, O'Grady SM. P2Y receptor regulation of K2P channels that facilitate  $K^+$  secretion by human mammary epithelial cells. *American Journal of Physiology* 2018; 314(5): C627-C639.
26. Lothong M, Wattanaphansak S, **Deachapunya C**, Poonyachoti S. Porcine reproductive and respiratory syndrome virus (PRRSV) preferentially infected the apical surface of primary endometrial cell monolayer. *Thai Journal of Veterinary Medicine* 2019; 49(4): 401-413.
